We suggest a large variety across the whole buffet.  
It is important to tell us any items you don't want included.

Generally over 50% of buffets are suitable for vegetarians.  
We are getting more requests for other special diets,  
vegan, gluten free etc, which we can cater for with prior  
notice and a surcharge of 20%. This is to help with the  
additional cost of the premium ingredients and products.

We like to discuss and work with customers drinks plans.  
We can supply drinks, glass hire and/or extra staff for  
drinks service where needed.

Depending on your location we may add a delivery/travel  
charge. This is to help with the cost of travel and there is  
no minimum order as delivery is being charged.
